Miss Arthur is the daughter of Mr. and Mrs. Cal Arthur of Mayslick, and is one of the most charming young society belles of this county.

Mr. Kirk is the youngest son of Mr. and Mrs. James N. Kirk of the county, and is a prominent Maysville business man, being the junior member of the firm of Kirk Bros., automobile dealers.

Saturday's snow turned into rain and it continued for 24 hours or more, and the streets were awful. The snow has about disappeared, which is a wonderful relief, as the whole month of January we had ice and snow to slip and slide about in.

## WORK BEGUN ON DAM

Soister Bros. Place First Lot of Timber On the Ground and Will Lease the Rock Quarry.

The first actual work on Dam No. 33 in the Ohio river was started last week when Soister Bros., of near Springdale, hauled the first load of lumber to the Hick's land, the location on the Kentucky side, just above the Maysville Brick Company's plant.

A rock quarry on the Soister farm will furnish most of the rock required for the dam.

## ANOTHER SCOOP THAT DID NOT MATERIALIZE.

From inside information we learn that the following item taken from this morning's Independent has no foundation and was probably only used for a lack of news:

Mr. William Davis, one of the Independent's valued employees, was in Newport Saturday and Sunday, and rumor has it that "Billy" contemplated taking a life partner, and the fortunate young lady was one of the Bee Hive's popular young clerks. We understand that Rev. George W. Bunton tied the knot. "Billy's" many friends are extending most hearty congratulations.

There will be a meeting of the First District P. T. A., on Tuesday, February 2, at 3:15 o'clock. Henceforth all meetings will be held on the first Tuesday in each month.

## GOMPERTS ON IMMIGRATION.

In his testimony before the Federal Commission on Industrial Relations in New York last week, Samuel Gompers said:

"The two great troubles from which labor is suffering are the constant influx of immigration and the failure of workers to organize and have a voice in shaping the conditions under which they work."

He added:

"When the awful war in Europe shall have come to an end the countries now engaged in that war will do everything in their power to prevent their strong, healthy, capable men from leaving, but on the other hand will encourage the weak, unhealthy, the enfeebled, the unfit to leave. And where can they go? Only to the United States or Canada. The consequences and the dangers of that war are such that it behooves us to exercise more than ordinary precaution against a danger that may injure and even overwhelm us."

Mr. Gompers does not exaggerate the importance of immigration in its bearing on the prosperity of the American working man. An immigration law that would protect labor itself as tariff laws protect the products of labor, would do more for the American who works with his hands, and for his children, than all the philanthropists, all the muckrakers, all the parlor Socialists combined.

## IS CANCER INCREASING?

The report for 1912 of the Registrar-General of England and Wales gives the cancer death-rate as 1,019 per million as compared with 993 for 1911 and 939 for the five years ending with 1910. Nearly every important registration office in the world reports a higher cancer death-rate every year. The assumption must not be too quickly made, however, that cancer itself is increasing at such a rate as to cause alarm. Many authorities hold that the recorded increase is the result of improvements in medical and statistical science. Physicians and surgeons now recognize obscure diseases as cancer and correctly ascribe to this cause many deaths that in former years found their way into general or uncertain classifications.

Since the only hope of curing cancer lies in its early recognition and treatment, the question of whether or not the disease is on the increase is relatively unimportant. In 1912, 46,531 deaths were recorded in the registration area of the United States as due to cancer and other malignant tumors. This includes about 60 per cent of the population. It is therefore evident that there were in 1912 about 75,000 deaths from cancer in the entire United States, as compared with perhaps twice as many from tuberculosis and one-fifth as many from typhoid fever.

## A GALLON OF GASOLINE.

A single gallon of gasoline will do wonders almost anywhere, but nowhere has it been applied to a better purpose than on the farm. Here are some of its stunts. It will milk 300 cows, bale four tons of hay, mix 35 yards of cement, move a ton truck 14 miles, plow three-fifths of an acre of land and make enough electricity to keep eight lights going in the farmhouse for 30 days.

"It is a 'cold day' when the Courier-Journal doesn't return an indictment against the American people."—Paducah News-Democrat.

Every mother's son of ye," said Parson Bullen, "is a pore sinful creature, an' if you don't do better'n you has been doin' the hell-sarpints'll shorely git yer!"—Courier Journal.

## THE PASSING OF THE LOAFER.

One of the best signs of material advancement in civilization is the disappearance of the loafer. Few towns are now infested by loafers, whereas, a few years ago every community had an over-production of fellows who hung about the stores, post-office and court house all day. There is nothing more disagreeable than a loafer, says the Danville Messenger. Especially is this so when men are busy at work. The loafer insists on talking to busy people, causing mistakes in many instances, and making the task of the busy man all the more severe. A loafer can tell better how business should be run than can those who are actively engaged therein, and no public question is beyond his understanding. The old time vagrant law should be put into effect, and any man who refuses to work be placed on the rockpile. As stated above, the loafer is fast disappearing, but there yet remains enough to annoy men who are trying to grind out an honest living. If a man will not work, for goodness sake, keep him out of the way of those who are trying to do something.

## A MAYSVILLE INCIDENT.

A Maysville grocer looked out at his front door and saw a big, able-bodied negro making a get-away with five heads of cabbage which he had abstracted from a barrel that had been put out on the sidewalk to tempt hungry customers. The grocer grabbed a stick and started in hot pursuit. It was a very exciting race, but the negro was handicapped with vegetables and when the grocer finally caught up with him and beat a tattoo on his head with the stick, the air was full of cabbage and cries for mercy. The grocer, having recovered his produce, admonished the frightened darkey to "go and sin no more," though he did not put the advice exactly in those words. At any rate, the negro went elsewhere to look for cabbage and Maysville settled down for a few moments of rest pending the inevitable moment when there should be a call for the coroner to pick up the remnants of some unfortunate individual run over by a C. & O. train.—State Journal.

## WE'VE THOUGHT IT OVER.

When a newspaper gives you a lot of free advertising, you get it free gratis for nothing; when they don't, you pay for it. Usually what you pay for costs you a whole lot less than what you ought to pay for, or what you get free gratis for nothing. Then again, the newspaper that gives you the most free gratis for nothing advertising gets the most cussing from the fellow who got the free gratis advertising for nothing. The meanest thing the fellow can say about the newspaper, the hardest knock the newspaper gets, is from the fellow who has received the most free gratis for nothing advertising; and the paper's best friend is the fellow who pays for what he gets, expects to, and makes no arrangements for anything else.—Falmouth News.

## RAILROAD MONEY IN OHIO.

## Information Wanted.

"Please, Mr. Wanamaker," said the little girl, "what is the price of those large wax dolls in your window?"

## WEAK KIDNEYS MAKE WEAK BODIES

Kidney Diseases Cause Many Aches and Pains of Maysville People.

As one weak link weakens a chain, so may weak kidneys weaken the whole body and hasten the final breaking-down.

Overwork, strains, colds and other causes injure the kidneys, and generally when their activity is lessened the whole body suffers.

Aches and pains and languor and urinary ills frequently come, and there is an ever-increasing tendency towards droopy, gravel or fatal Bright's disease. When the kidneys fail there is no real help for the sufferer except kidney help.

Doan's Kidney Pills act directly on the kidneys. Maysville testimony is proof of their effectiveness.

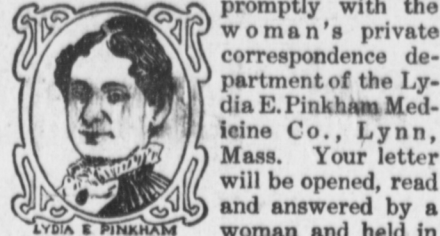

Mrs. Annie McClellan, 541 W. Second St., Maysville, Ky., says: "I was often dizzy and nervous and my head ached. I had pain in my back and my kidneys were weak. Doan's Kidney Pills stopped the complaint immediately and made me well and strong."

Mrs. McClellan is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mrs. McClellan had—the remedy backed by home testimony. 50c all stores. ## THE GREAT AMERICAN CIRCUS.

W. R. Andrews of Grand Rapids, Mich., at a recent toast got off the following appeal to the Filipinos:

"You Filipinos don't know what you are missing by not wanting to become citizens of this grand country of ours. There isn't anything like it under the sun. You ought to send a delegation over to see us—the land of the free—land of the churches and 40,000 licensed saloons; Bibles, forts and guns, houses of prostitution; millionaires and paupers; theologians and thieves; libertarians and liars; politicians and poverty; Christians and chain gangs; schools and sealwags; trusts and tramps; money and misery; homes and hunger; virtue and vice; a land where you can get a good Bible for 15 cents and a bad drink of whisky for 5 cents; where we have a man in Congress with three wives and a lot in the penitentiary for having two wives; where some men make sausage out of their wives and some want to eat them raw; where we make bologna out of dogs; canned beef out of horses and sick cows; and corpses out of the people who eat it; where we put a man in jail for not having the means of support and on the rock pile for asking for a job of work; where we license bawdy houses and fine men for preaching Christ on the street corners; where we have a Congress of 400 men who make laws and a Supreme Court of nine men who set them aside; where good whisky makes bad men and bad men make good whisky; where newspapers are paid for suppressing the truth and made rich for teaching a lie; where professors who draw their convictions from the same place they do their salaries; where preachers are paid \$25,000 a year to dodge the devil and tickle the ears of the wealthy; where business consists of getting hold of property in any way that won't land you in the penitentiary; where trusts 'hold up' and poverty 'holds down'; where men vote for what they do not want for fear they won't get what they do want by voting for it; where negroes vote and women can't; where a girl who goes wrong is made an outcast and her male partner flourishes as a gentleman; where women wear false hair and men dock their horses' tail where the political wirepuller has displaced the patriotic statesman; where men vote for a thing one day and cuss it 364 days; where we have prayers on the floor of our national capital and whisky in the cellar; where we spend \$500 to bury a statesman who is rich and \$10 to bury a man who is poor; where to be virtuous is to be lonesome and to be honest is to be a crank; where we sit on the safety valve of energy and pull open the throttle of conscience; where gold is substance, the one thing sought for; where we pay \$15 for a dog and 15 cents a dozen to a poor woman for making shirts; where we teach the untutored Indian eternal life from the Bible and kill him off with bad whisky; where we put a man in jail for stealing a loaf of bread and in Congress for stealing a railroad; where the checkbook talks, sin walks in broad daylight, justice is asleep, crime runs amuck, corruption permeates our whole social and political fabric, and the devil laughs from every street corner. Come to us, Filipinos! We've got the greatest aggregation of good things and bad things, hot things and cold things, all sizes, varieties and colors, ever exhibited under one tent."

## "OLD RELIABLE" LAYS HER 3,000th EGG.

Caldwell, N. J.,—"Old Reliable," a hen owned by Miss Elsie Dobbins, challenges the world for long distance laying. "Old Reliable" has just laid her 3,000th egg and still is occupying the same old nest. Though 14 years old, she is ready to meet any of the more frivolous folk of the banyard in a laying contest. Statisticians figure that the eggs produced by "Old Reliable" would make an omelet large enough to cover the meadows on the golf links at Van Courtland park.

### "CUSTOMER FIRST FLASHES"

"While elegant store buildings and beautiful merchandise are of course essentials, the ONE factor that makes a town famous as a shopping center is the way customers are treated in the retail stores in that town."

"Efficient salesmanship is an art. To be able to sell all sort of people, these days, requires abilities that place the successful salesperson on a par with any artist."

"The Saleslady who divorces herself from her chewing gum, is generally awarded alimony in the shape of an increased salary."

Increased salary."

"It is not generally known, but we are learning that newspaper advertising is doing more to develop the retail salesperson and retail salesmanship than any other known factor."

"The phrase 'Customer First' was originated in Cincinnati by a progressive Queen City retailer, and it has been adopted as the retail merchandising gospel. Missionaries are needed to preach the gospel of 'Customer First.'"

MAY NOT TRY MRS. ANGLE.

Stamford, Conn., February 1.—The case of Mrs. Helen M. Angle is docketed for hearing at this month's term of the Superior court, but is generally believed that the case will be dismissed without ever coming to trial. Mrs. Angle, who is a member of one of Stamford's most prominent families, is charged with manslaughter growing out of the death of Waldo R. Ballou, who was found dying on the sidewalk in front of her apartment late on the night of June 23, last. The victim was a man of wealth and prominence and had long been a friend of Mrs. Angle. The latter admitted that Mr. Ballou had called on her the night of the tragedy and in taking his departure had slipped on the stairs and met with the injuries which caused his death. A fear of publicity, she said, had impelled her to drag the body to the sidewalk where it was found later. So far as is known the state has little or no evidence to support the early theory that the victim of the tragedy had met with foul play.

A resolution was passed by the Vermont Legislature thanking Mrs. Bettie Van Metre of Berryville, Va., for the kindness shown a Vermont soldier in the Civil war.

### A MODEL EX-PRESIDENT

Taft Has Set a Model of Helpfulness Since Retiring to Private Life.

(Boston Transcript.)

Never in the history of the country has there been a man, who, after retiring from the Presidency, has been to a more flattering extent persona grata to his fellow citizens than former President William Howard Taft, who is now delivering a course of lectures before the students of the Harvard Law School. The invitations to lecture that he has received come from all over the country and in such numbers that he can accept only a comparatively few of them. He could fill matinee and evening engagements for the entire season and even then have more engagements that he could fulfill. The desire to hear him is particularly noticeable among the colleges and the professional schools of the universities, and not a few of them envy the privileges of the Yale Law School, with which he is regularly connected.

Half humorously and half seriously the question has long been before the country, "What shall we do with our ex-Presidents?" The more important phrasing of it would be: "What will they do with themselves?" There have been varying solutions of that problem. John Quincy Adams returned to the popular branch of Congress. Rutherford B. Hayes engaged in chicken farming, both honorable lines of service. Mr. Taft seems to have set an example of helpfulness as he returns to private life that is well worthy of imitation by all who have the capacity to follow in his footsteps or carve out new forms of service of equal value. He has not wrapped himself in his dignity and gone into seclusion to pose as an occasional oracle; nor has he set traps to embarrass his successors, but has demonstrated that the right kind of a man can be as useful as a private citizen as he can in the highest public position. Service is a term of very comprehensive meaning. The man who can interpret it aright will always find himself in request. Mr. Taft is proving himself that kind of a man.

Mr. Taft seems to have set an example of helpfulness as he returns to private life that is well worthy of imitation by all who have the capacity to follow in his footsteps or carve out new forms of service of equal value. He has not wrapped himself in his dignity and gone into seclusion to pose as an occasional oracle; nor has he set traps to embarrass his successors, but has demonstrated that the right kind of a man can be as useful as a private citizen as he can in the highest public position. Service is a term of very comprehensive meaning. The man who can interpret it aright will always find himself in request. Mr. Taft is proving himself that kind of a man.

Half humorously and half seriously the question has long been before the country, "What shall we do with our ex-Presidents?" The more important phrasing of it would be: "What will they do with themselves?" There have been varying solutions of that problem. John Quincy Adams returned to the popular branch of Congress. Rutherford B. Hayes engaged in chicken farming, both honorable lines of service. ## CHURCH NOTES

Following is the Sunday school attendance for the various Maysville Sunday schools for Sunday, January 31:

Christian .....	130
Baptist .....	89
First M. E., South .....	88
First Presbyterian .....	79
Third Street M. E. ....	70
Second M. E., South .....	63
Central Presbyterian .....	58
City Mission .....	50
Forest Avenue M. E. ....	38
Episcopal .....	0
Total .....	665

Yesterday's bad weather had a very depressing effect on all the church services in this city, the Sunday schools especially suffering. Yesterday's total attendance amounted to only 665, which was 335 short of the 1,000 mark set by our city superintendent. Let us all push to put it over the 1,000 mark next Sunday, and thus gain back what we have lost.

A series of revival meetings with Miss Davies, a very forceful and eloquent speaker, in charge, started yesterday at the First M. E. church, South, and notwithstanding the bad weather, fairly good crowds were in attendance at both morning and evening services. Services every night this week at 7 o'clock. Everybody invited.

There were two additions at the First Presbyterian church yesterday morning.

**SHOWALTER WINNER IN CHESS TOURNAMENT.**

(Lexington Leader.)

Last night was "chess night" at the Y. M. C. A., and it looked as if every man in Lexington who really knows how to play chess was on hand to participate in the chess tournament in which "Jack" Showalter, the famous chess expert of Georgetown, essayed the leading role, or to stand by and watch the exciting contest from the side. Mr. Showalter, who has a national reputation as chess player, was at his best, and the game was witnessed by at least 50 interested spectators. Mr. Showalter played 14 competitors simultaneously, and would have probably vanquished the whole lot, but the contest was brought suddenly to a close a few minutes before 11 o'clock to allow Mr. Showalter time to catch the outgoing 11 o'clock car for Georgetown.

New York.—Between \$40,000 and \$50,000 worth of diamonds were stolen Saturday from the pawnshop of Adolph Stern on the upper East Side by four men who drove up to the store in an automobile, held up the three clerks with revolvers, bound and gagged them, threw the jewels in three suitcases and escaped in the waiting car.

## 20 REVENUE SERVICE MEN DROPPED AT LEXINGTON.

Lexington, Ky., January 30.—Twenty-nine of the 126 storekeepers and gaugers in this district are to be dropped from the service by United States Internal Revenue Collector Ben Marshall. This action is taken under the order of Commissioner of Internal Revenue Osborn that the number of storekeepers and gaugers must be reduced to a maximum of 15 per cent more than the number on actual duty. Only 84 of them are at work at present, though this is the busiest season of the year, and the order required that only 13 more than this number be retained.

"General conditions are responsible for the layoff," said Collector Marshall. "There are now 14 fewer distilleries running in this district than there were last year. The G. G. White distillery at Paris, and the J. M. Saffell & Company plant at Frankfort have been dismantled, and the James E. Pepper Company distillery at Yarnall-

Chicago.—Six-cent bread was introduced here by the National Association of Master Bakers, through its secretary, Joseph M. Bell.

While the bakers were considering raising the price of the 5-cent loaf, the Clean Food Club was outlining a campaign to teach housewives the economy of home made bread.

Mrs. H. V. Von Holst, president of the club, declared that small families ought to eat more rice, macaroni and vegetables and less bread if they wished to reduce the burden imposed by a 6-cent loaf.

Rumors in London that trouble is being experienced in Panama in keeping the canal open caused the government to ask the British minister to determine the exact conditions.

### XMAS ECHOES

From the Esplanade Tree—The Christ Child Lives in Nation's Heart—

Some Pertinent Christian Sentiment.

"Lest we forget, lest we forget." Outing on the Esplanade, still mutely reminding us of the dear Christ child's coming to erring mankind, stands our feeble tribute to Him Who gave so much to us.

A bit of woodland green amidst the snow and ice and drear of winter time, serving still to keep green in our hearts that blessed memory; and day by day in the hurried walk of life, in the quiet hush of night, let us pause with a silent prayer that "peace on earth, good will toward men," may quickly come to the nations now warring with each other, that the sun may no longer rise with a blush to shine on fields of ruin, carnage and death, that the moon's pale light shine softly on sleeping hamlets and vale instead of confusion and hideous sound, and the twinkling stars, "forget-me-nots of the angels," may witness other than wakeful eyes of mothers and children, and the crying for loved ones, "and will not be comforted," as of old.

The same sun, moon and stars shine alike on these awful scenes and our tree, the birthday gift to Jesus.

Whilst we pray then, how comforting to know, too, that the same God rules over all, and that in his own good time "all will be well."

With the greatest charity toward all who are yet seeking to determine whether a municipal tree is wise or not, let us suggest that you ponder over this thought:

"The poor ye have with you always," and if Jesus was not displeased with the breaking of the alabaster vase and the spilling of rare ointment, surely it is well for us to sometime honor Him thus to this day.

Is not the idea very, very old, originally. Most of us link Sunday school and Christmas trees together in our memories of childhood days. It was a joy from our youth up.

This is the same idea carried out on a large scale, save the lacking in the absence of gifts, that it is His birthday that we wish to commemorate and not an opportunity for receiving gifts ourselves.

The tree for the individual Sunday school, with its decorations, costs several dollars, whereas one large one with these funds combined around which all may meet and sing beautiful carols, embodies one common spirit of unity.

How many grownups, as well as small folks, would not have seen a "Star of Bethlehem" over a Christmas tree or heard "We Three Kings of Orient," "Silent Night," etc., had they not come out on the Esplanade Christmas eve?

Two small boys were overheard in conversation. One of them said, "This is the first Christmas tree I ever had." True enough, there are the churches and the Mission, whose doors are open to all, but sad enough, notwithstanding many we know, are not even there reached. Let us then not be weary in well doing.
